DETAILED ACTION

This is a notice of allowability. Claims 1-28, 32-36, 45, 46, 48-50 and 54-56 are cancelled. Claims 29-31, 37-44, 47, 51-53 are pending.

Allowable Subject Matter

1. Claims 29-31, 37-44, 47 and 51-53 are allowed.

The following is an examiner's statement of reasons for allowance:

Independent Claim 29: the prior art of record discloses the claimed invention except for the first and second sets of male interlocks, where the second male interlock has inner and outer sidewalls where the outer sidewall forms a channel with the first male interlock and is to mate with an inverted one of other second male interlocks, the outer sidewall is curved to form an alternating configuration and the interlock of the first set of male interlocks has three sides joined together to form a substantially triangular configuration.

Independent Claims 44 and 47: the prior art of record discloses the claimed invention except for first and second walled structures projecting from support edges where the second walled structure has inner and outer sidewalls that traverse the

Art Unit: 3635

support edge, the outer sidewall of the second walled structure is spaced from a first walled structure to form an open-ended channel and the inner sidewall forms an open-ended cavity that is to mate with an inverted one of another first walled structure, where the first walled structure has three adjoining sides and the third side of the first walled structure is parallel to a longitudinal support axis, and per Claim 47, a pair of the first walled interlock structures are disposed adjacent each tile corner and are inverted relative to each other.

Per the above claims, the prior art of record does not anticipate the claims and there is no reasoning to combine or modify the prior art of record that would be obvious to one of ordinary skill in the art at the time the invention was made.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
